Chemistry and Physics of Lipids, 44 (1987) 369
Elsevier Scientific Publishers Ireland Ltd.

CONTENTS

Volume 44 (1987)

R.N. Notter, D.L. Shapiro, B. Ohning and J.A. Whitsett, *Biophysical activity of synthetic phospholipids combined with purified lung surfactant 6000 dalton apoprotein* 1
M. Kriechbaum, O.S. Wolfbeis and E. Koller, *Evaluation of critical micelle concentrations of non-ionic detergents using new superpolar lipid probes* 19
P. Laggner, K. Lohner, G. Degovics, K. Müller and A. Schuster, *Structure and thermodynamics of the dihexadecylphosphatidylcholine–water system* 31
K. Lohner, A. Schuster, G. Degovics, K. Muller and P. Laggner, *Thermal phase behaviour and structure of hydrated mixtures between dipalmitoyl- and dihexadecylphosphatidylcholine* 61

LIPID PEROXIDATION: PART I. BIOCHEMICAL AND BIOPHYSICAL ASPECTS

Introduction 71
E.N. Frankel, *Secondary products of lipid oxidation* 73
L.L. Smith, *Cholesterol autoxidation 1981–1986* 87
G.A. Reed, *Co-oxidation of xenobiotics: lipid peroxyl derivatives as mediators of metabolism* 127
M.J. Davies, *Applications of electron spin resonance spectroscopy to the identification of radicals produced during lipid peroxidation* 149
C. Richter, *Biophysical consequences of lipid peroxidation in membranes* 175
G. Minotti and S.D. Aust, *The role of iron in the initiation of lipid peroxidation* 191
H. de Groot and T. Noll, *The role of physiological oxygen partial pressures in lipid peroxidation. Theoretical considerations and experimental evidence* 209
E. Niki, *Antioxidants in relation to lipid peroxidation* 227
F. Ursini and A. Bindoli, *The role of selenium peroxidases in the protection against oxidative damage of membranes* 255
K. Kikugawa and M. Beppu, *Involvement of lipid oxidation products in the formation of fluorescent and cross-linked proteins* 277
M. Tsuchida, T. Miura and K. Aibara, *Lipofuscin and lipofuscin-like substances* 297
B. Halliwell, *Oxidation damage, lipid peroxidation and antioxidant protection in chloroplasts* 327
A. Hatanaka, T. Kajiwara and J. Sekiya, *Biosynthetic pathway for C_6-aldehydes formation from linolenic acid in green leaves* 341
